

MY FELLOW CITIZENS OF JASPER

DO YOU REALLY KNOW YOUR CANDIDATES FOR MAYOR?

DEMOCRAT

INDEPENDENT

REPUBLICAN

Independent mayoral candidate, "Mack" (Jeffrey Mack) Steffen wants the citizens of Jasper to know his platform, his stand on the issues, and him as an individual.

I have personally challenged the Democratic and Republican candidates to a series of monthly debates tentatively beginning the week of July 17. I stated the people of Jasper deserve the dialogue among candidates. The format will include politically independent moderators with the questions and issues submitted by Jasper's candidates and from the audience. It would be unfair to you, the people, to vote in November with only the limited knowledge gained less than a month prior to election by way of October forums. I am looking for civic organizations to sponsor and moderate these debates.

One candidate has accepted the challenge. I commend this candidate for taking up the challenge. I believe the people should know as much as possible about their choices for mayor. I believe your candidates for mayor should be known individuals and it should be known exactly where they stand on the issues. In my opinion, this is one of the most important elections for mayor in Jasper's history, and all the candidates should be accessible to the people.

I am happy to announce my website is up and running, along with Facebook and blogs. Please go to www.mackformayor.com to see my "11 Points of Reason" Platform, and the "21 Issues" (21 and growing) facing Jasper and its candidates. Also included on the website is personal information about me, news and articles, our U.S. Constitution, and our Bill of Rights. The site has direct links to my Facebook account and my blog. One can also go directly to Facebook, www.facebook.com/pages/MACK-for-Mayor_108274435929824, or my blog <http://mackformayor.blogspot.com>. Citizens can email me from any of these sites or send emails directly to mackformayor@psci.net. I am available 24/7 and can be reached at 482-7025.

Happy Independence Day to all.

I support a bio-mass or an alternative energy plant in Jasper's future if health and financial requirements are met. However, **I DO NOT SUPPORT** the city's present proposal. Please join me in saying **NO to this year** and **NO to the current bio-mass proposal**.

I DO NOT SUPPORT construction of a new library on South Newton Street. I support expansion or construction of the library on its present site, or at the very least, in Central Jasper. Please save our history and your money. Vote **NO** in the November referendum for the proposed new library.
